November	District Fall Data Review Year 3+	District Implementation Team
March	District Winter Data Review Year 3+ Coaching Support Session	District Coordinator
March	District Winter Data Review Year 3+	District Implementation Team

In addition to the professional learning sessions listed above and in the school level scope and sequence documents, at least two people from the district must attend data coordinator trainings. The MiMTSS TA Center will help the district to select the right people and timing to attend certification training.

The MiMTSS TA Center periodically reviews and revises the scope and sequence and professional development materials in order to ensure the highest quality training and supports. This will result in durable, sustainable implementation of MTSS with fidelity that will lead to improved student outcomes. In the event of proposed changes, partners can expect communication regarding why and strategic planning to support transitions.

Data Coordination Role	Support Function and Training Format
PBIS Assessment Coordinator	Use of PBIS Assessment, Format: Online course is continuously available
School-wide PBIS Tiered Fidelity Inventory Facilitator	Administration of the SWPBIS Tiered Fidelity Inventory (elementary and secondary) Format: Online course is continuously available
