- These resources can be used as a starting point and refined to meet the needs of your district

District Implementation Infrastructure

Selecting Roles to Support MTSS (cont.)

Existing District Organizational Structures

- A school district is comprised of the following structures each with its own function:

 2. Executive Leadership (includes Superintendent)
 3. Administrative Team
- Each of these structures is necessary to support the development of a district implementation infrastructure and implementation of MTSS.

Committee Audit

- Completion of the District Structure and Committee Audit was an assignment to be completed following the first District Readiness Session
- Results can be used to
 - Identify opportunities to leverage existing team structures
 - Create efficiencies by consolidating the number of teams or committees
 - Clarify the purpose of each team or committee
 - Determine how new teams will fit within existing structures
 - Inform selection decisions when leveraging existing staff

Activity 2.1

- Your Implementation Specialists will facilitate a review of the District Organizational Structure and Committee Audit
 - What are the existing structures and teams in your district?
 - Who are the individuals that are a part of each?
 - How might these groups work together to support implementation of MTSS?
 - How will the District Implementation Team work with these existing structures?

Class-wide PBIS Training

- Full day, district-wide training that all classroom staff will need to attend
