

DIT Development Prework and Reflection Questions

The document provides reflection questions to support District Coordinators when viewing recorded modules and completing pre-work prior to coaching support sessions.

Recorded Modules

Consider each of these questions as you watch the pre-recorded modules.

1. What is a district implementation infrastructure and how does the DIT support it?
2. Why is the district infrastructure necessary for strong implementation of MTSS?
3. What is implementation science and how does it support the goal of sustainability?
4. Record any additional thoughts or questions you had based on your learning.

Connection to the DCA

Access the District Capacity Assessment. Review the 2-point criteria for each of the items listed below. Make note of where your district is at with each of these items and any questions you might have related to the item.

Table 1. Connecting prework to DCA items

DCA Item	Current Level of Implementation (i.e., existing processes, procedures)	Questions
Item 1: DIT to support implementation		
Item 2: DIT includes executive leader		
Item 3: DIT includes Coordinator		
Item 4: DIT uses effective team meeting process		
Item 8: DIT has an implementation plan		

Michigan's MTSS Technical Assistance Center is funded by the Michigan Department of Education and the U.S. Department of Education, Office of Special Education Programs.
