- Prepare for implementation by engaging in program delivery practice

Agenda

- 1.0 The Science of Teaching Reading
- 2.0 Program Placement
- 3.0 Preparing to Teach
- 4.0 Monitoring Progress
- 5.0 Program Enhancements

1.0 The Science of Teaching Reading

Connecting research to instruction

In Module 1.0, we will...

- Provide an overview of the following:
 - Michigan's 3rd grade reading law
 - General Education Leadership Network
 - MIBLSI
 - Simple View of Reading
- Connect how these pieces fit with Phonics for Reading Second Level

MI Reading Instruction

- **3rd Grade Reading Law**
 - Explicit, systematic instruction
 - 5 Big Ideas of Reading
 - Individualized Reading Improvement Plans (IRIP)
- **GELN K-3 Essential Practices**
 - 10 essential practices connection
 - #5. Explicit instruction in letter-sound relationships
 - #3. Small group and individual instruction...
 - #4: Activities that build phonological awareness
- **MIBLSI**
 - Science of teaching reading
 - Connecting the law & resources with systems & practices

Simple View of Reading

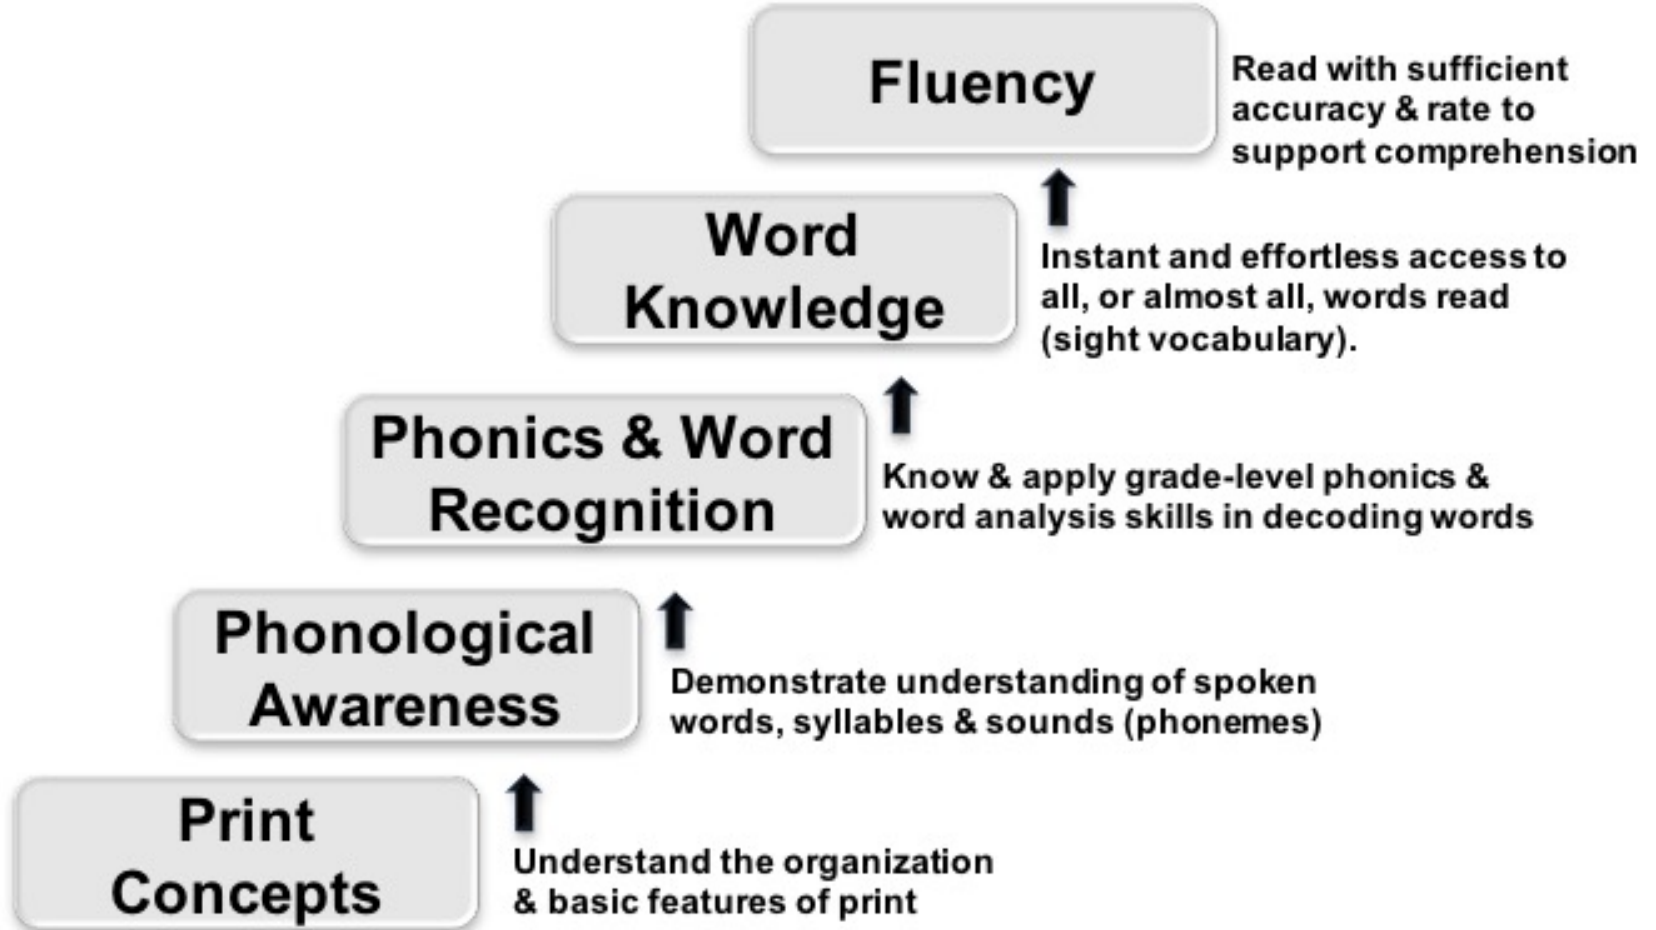

A formula introduced by Gough & Tunmer in 1986

Word-level reading and oral language comprehension are relatively independent abilities.

Gough, 1986

Simple View of Reading: Decoding

Gough, 1986: Kilpatrick, 2015

Simple View of Reading: Language

Inferential Language Skills	Narrative Language Skills	Academic Vocabulary	Background Knowledge
Ability to discuss topics beyond the immediate context	Ability to clearly relate a series of events	Ability to comprehend & use words	Possesses general and topic-specific background knowledge

Gough, 1986

What is Phonics for Reading Second Level?

Research-validated program that:

- Provides explicit instruction in phonics
 - With phonemic awareness, fluency & comprehension components as well
- Teaches students how to read one-syllable and multi-syllable words by using knowledge of letter sound relationships as well as structural units such as root words and word endings
- Utilizes explicit, teacher-directed instruction to introduce skills & strategies

Phonics for Reading, Second Level

Focuses on skills usually mastered in 2nd Grade

- Sounds and Letter Combinations
 - Vowel Combinations: Lessons 1-12
 - CVCe Words: Lessons 13-20
 - R-Controlled Vowels: 21-32
- Word Endings
 - Words ending in - ed: Lessons 1-6
 - Words with both - ed and - ing: Lessons 7-12
 - Root words altered when -ing added: Lessons 13-20
 - Word Ending Culumative Review: Lessons 21-23
 - Culumative Review and words with - er : Lessons 24-32

Activity 1.1

- **Review & Reflect:**
 - **Where does Phonics for Reading Second Level fit into the Simple View of Reading? What bucket does it support & why?**
 - **What skills are targeted in Second Level? What grade level(s) are these skills generally introduced?**
 - **How does Phonics for Reading fit with the 3rd grade reading law? GELN?**

2.0 Program Placement

If we get this right, the light bulb ignites!

In Module 2.0, we will...

- Understand basic phonics development
- Know what to look for when students “own that skill”
- Use data to determine who might be a good fit for Phonics for Reading Second Level
- Practice placing students into groups for the program

Do Students Own The Skill?

Activity 2.1

Turn to the last page in your TE, p. 191. You will find the Scope & Sequence Chart – Second Level.

- There are five columns across the top that provide you an overview of each lesson. Partner 1, read through Lessons 1-16 & Partner 2 read through lessons 17-32. Share one key noticing with each other.
- Using slides 21 & 22, at what grade should students own the following skills?
 - Vowel Combinations: Lessons 1-12
 - CVCe with Long Vowels a, i and o: Lessons 13-20
 - R-Controlled Vowel Sounds: Lessons 21-32
 - Word Endings -ed, -ing and -er: Lessons 1-32

Intervention Grid

- Provides an “at a glance” view of interventions accessible to students within the school
- Outlines the following critical information:
 - Description/Purpose of the Intervention
 - Entrance Criteria (decision rules)
 - Permission (parent/family)
 - Progress monitoring guidelines
 - Exit Criteria

Grid Component	Intervention Specific Information
Intervention Support	Phonics for Reading Level One
Description	<ul style="list-style-type: none"> • Provide explicit instruction in phonics (with phonemic awareness, fluency & comprehension components as well) • Focuses on skills usually mastered in 1st grade (short vowels, double consonants, consonant blends & digraphs) • Utilizes explicit, teacher-directed instruction to introduce skills and strategies

Activity 2.2

- **Review the Intervention Grid Example in your workbook**
- **Why might this be helpful to have for each intervention in your school?**

Intervention vs Core Supplement

Small group intervention is ideal

- More opportunities to practice, monitor, & provide feedback
- Materials designed for small groups of up to ten students

If there is no core reading program, it can be used as a supplement for phonics instruction

- Whole group lesson followed by small group instruction & practice to better monitor students is recommended

Program Prerequisites

Can decode words that contain:

- Short vowels, single and double consonant blends and consonant digraphs

How Do We Know Who Owns What Skill?

- Use universal screening data to help determine (ex: DIBELS Next)
- Review the scores
 - DORF Accuracy, DORF Words Correct (MOY 1st & beyond)
 - NWF CLS & WWR (MOY of K-BOY of 2nd)
- Open up the student response booklets to look for patterns & instructional need

Placement Test Details

Purpose:

- To place students into the 1st, 2nd, or 3rd program levels
- To measure progress in decoding after instruction

Prep:

- Make one copy of Student Form for student to read (pgs. 172-174)
- Make copies of Recording Form (pgs. 175-177)

Procedure:

- Students read aloud words
- 4 consecutive errors – stop subtest
- 5 seconds or less on each word
- 80% correct – continue on to next subtest
- Individual & Group Reporting Forms (pgs. 178-179)

Activity 2.3

- **Review the Placement Test Instructions starting on page 181. Then skim over the placement test for each level & starting point, pages 181-188.**
- **Question to Ponder: How might universal screeners inform when & at what point to start this placement test?**

3.0 Preparing to Teach

Matching Data to Instruction = Power

In Module 3.0, we will...

- Develop an understanding of creating consistent sounds & how to make them
- Review key instructional elements to make this program come to life
- Understand how each section of the lesson connects to best practice in phonics instruction
- Practice teaching each section of a lesson

Consistent Sound Messages

- Instruction in sounds includes:
 - Stop vs. continuous sounds
 - Voiced vs. unvoiced
 - Pronunciation (how to accurately say the sounds)

Continuous & Stop Sounds Defined

- Continuous sounds: sounds can be made until a person runs out of breath without distorting the sound
 - Examples: /s/, /m/, /a/
- Stop sounds: sounds produced with one short push of breath
 - If a stop sound is held, the sound will be distorted
 - Examples: /b/, /g/, /t/

Continuous Vs. Stop Sounds

Continuous	Stop
/f/	/b/
/l/	/d/
/m/	/g/
/n/	/h/
/r/	/j/
/s/	/k/
/v/	/p/
/w/	/t/
/y/	
/z/	
All vowel sounds (name & sound)	

Voiced vs. Unvoiced Sounds

- Voiced sounds: spoken with the “voice box” turned on or resonating
- Unvoiced sounds: spoken with the “voice box” turned off, like a whisper

Voice On	Voice Off
V	F
B	P
Z	S
D	T
G	K

Sound Pronunciation Guidance

Activity 3.1

Sound Practice

- **Locate the Scope & Sequence on p. 191**
- **Read through the sounds for each lesson as a group, then practice with your partner.**
- **Remember all vowel sounds are continuous.**

Lesson Details

- One lesson – approximately 45-50 minutes
 - However, the lesson can be divided into two parts (1/2 lesson on Monday, 1/2 lesson on Tuesday)
- Cautions:
 - 30 minutes/lesson – check for enough practice & review.
 - Over 50 minutes/lesson, check for correct pacing and placement
- Not a workbook activity! Think instruction & practice

Lesson Delivery

Instructional Routines

- Teacher Script
- Perceived Probability of Success

Frequent Responses

- Choral & partner responses
- Written responses
- Physical (touch/point aka “follow along”)

Monitor & Provide Feedback

- Positives
- Error corrections
- I Do/We Do/You Do approach

LESSON 1

1

OBJECTIVES

- to introduce ai and ay words with the sound of /ā/
- to introduce words with the word ending -ed

2

 **New Sound**

(Have students open their books to Lesson 1, page 4.)

1. Look at the top of page 4 in your book.
2. Touch the first word.
3. This word is **rain**. Say the word. *rain*
4. The underlined sound is /āā/. Say the sound. /āā/
5. Say the sound again. /āā/
6. Touch the next word.
7. This word is **play**. Say the word. *play*
8. The underlined sound is /āā/. Say the sound. /āā/
9. Say the sound again. /āā/

(Have students close their books. Then do the Sound Drill activity.)

 **Sound Drill**
(Oral Teacher-Directed Activity)

(Write the following on the board or display it on-screen:)

1.	ay	ch	ai	th
2.	ai	sh	u	ch
3.	wh	e	ay	sh
4.	th	o	ai	i
5.	ay	cli	ck	wh

1. Let's practice saying the sounds in the words that we will be reading. Look at the letters in line 1. Say the sounds. /āā/, /ch/, /āā/, /th/
2. Look at the letters in line 2. Say the sounds. /āā/, /sh/, /uu/, /ch/

(Repeat step 2 with lines 3–5. Then call on individual students to say the sounds in a line.)

(NOTE: As an alternative, review the sounds with flash cards.)

Associating Letters & Sounds Rationale

“a student requires dozens or even hundreds of exposures to letters and their corresponding names and sounds before they become permanently stored and automatically accessible.”

— Kilpatrick p. 271, 2015

Section #4: Phonemic Awareness

4a: Lessons 1-6

Blending Sounds

(Oral Teacher-Directed Activity)

Let's practice saying some words. I will say a word slowly. You tell me the word. /t/ /rrr/ /aaa/ /lll/ What is the word? *trail*

(Repeat this procedure with the following words:)

clay	/k/	/lll/	/aaa/	
faint	/fff/	/aaa/	/nnn/	/t/
gain	/g/	/aaa/	/nnn/	
braid	/b/	/rrr/	/aaa/	/d/

(NOTE: As you pronounce these words slowly, don't stop between the sounds. This practice will assist students in recognizing words that they have sounded out.)

4b: Lessons 7-12

Segmenting Words into Sounds

(Oral Teacher-Directed Activity)

1. Let's practice saying some words. I will say a word, and then you will say the sounds in the word.
2. The first word is **night**. What is the word? *night*
3. Say the sounds in **night**. Put up a finger for each sound. /nnn/ /iii/ /t/
4. The next word is **coast**. What is the word? *coast*
5. Say the sounds in **coast**. Put up a finger for each sound. /k/ /ooo/ /sss/ /t/

(Repeat steps 4 and 5 with these words:)

flown	/fff/	/lll/	/ooo/	/nnn/
bright	/b/	/rrr/	/iii/	/t/
bleach	/b/	/lll/	/eee/	/ch/

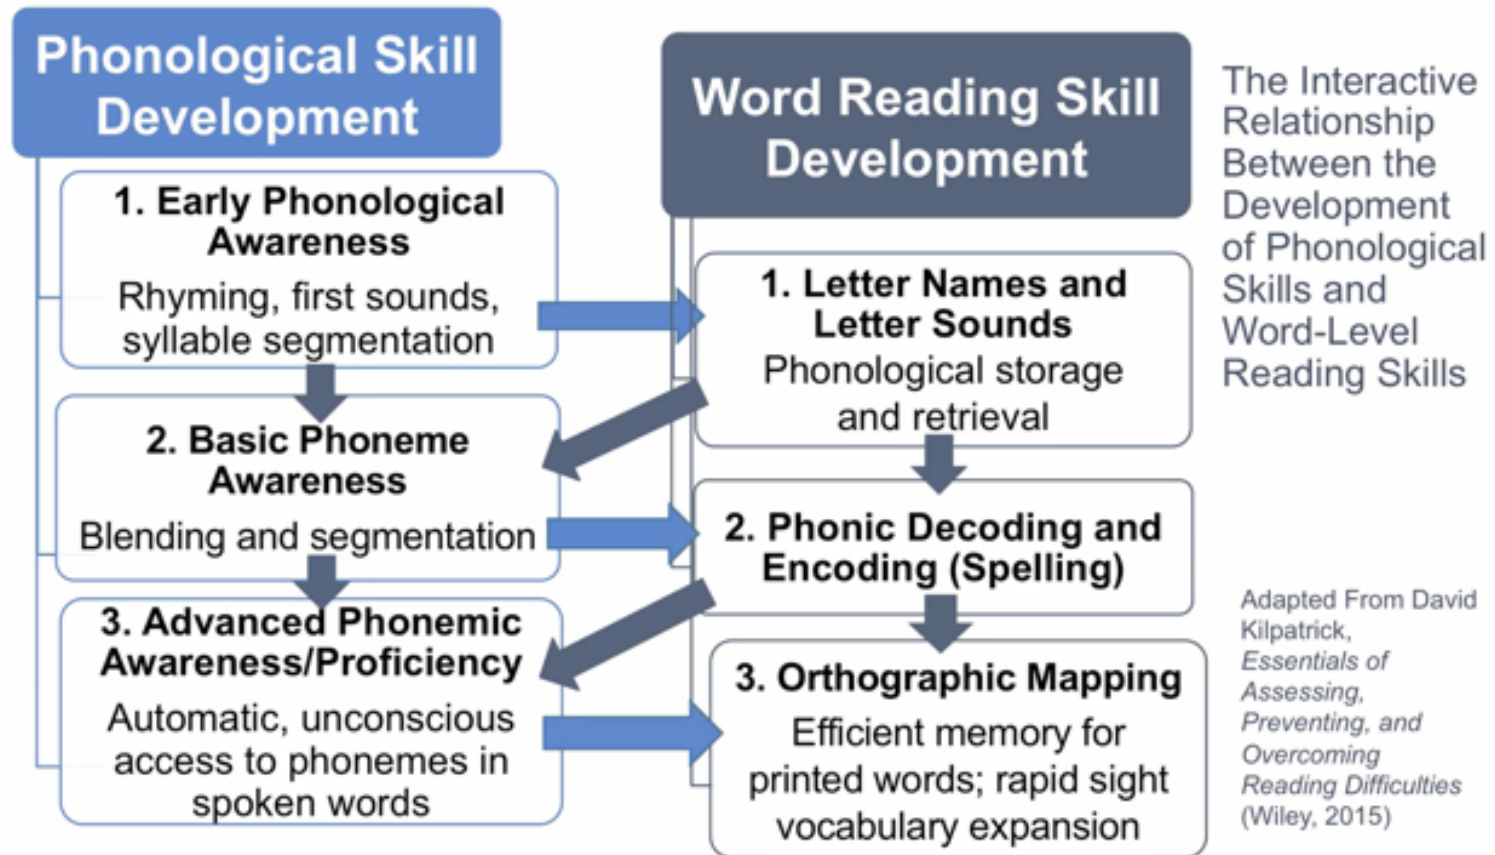

Phonemic Awareness: Why

“Every point in a child’s development of word-level reading is substantially affected by phonological awareness skills, from learning letter names all the way up to efficiently adding new, multisyllabic words to their automatic word vocabulary.”

Kilpatrick, 2015; p. 65

The Three Phases of Word Reading Development and their Phonological Counterparts

(Ehri, 2005; Kilpatrick, 2015)

Phonemic Awareness Option: Les#12

Task Routine	Lesson #1 Words
Blend: Put these sounds together to make a word: /lll/ /igh/ /t/. What word? light	bright, sigh, least, show, faint
Segment: Let's tap & say the sounds in the word: might. /mmm/ /igh/ /t/	steal, fright, night, braid
Add: Say weep. Add /s/ to the beginning and the word is? sweep	light – add /fff/ right – add /fff/ rain – add /b/
Delete: Say sweep. Without /w/, what is left? seep	bright - /rrr/ - bite steal - /t/ - seal sight - /t/ - sigh
Substitute: Say slash. Change /sh/ to /p/, and the word is? slah	br <u>is</u> k - /s/ - brick gr <u>ass</u> - /sp/ - grasp ch <u>i</u> ck - /eee/ - check

1. Let's practice saying the sounds in the words that we will be reading. Look at the letters in line 1. Say the sounds. /at/, /ah/, /ch/, /ay/

4 Blending Sounds
(Oral Teacher-Directed Activity)

Let's practice saying some words. I will say a word slowly. You tell me the word. /min/ /min/ /t/. What is the word? min.

(Repeat this procedure with the following words.)

play	/p/	/h/	/t/
pain	/p/	/h/	/n/
wait	/w/	/t/	/t/
aid	/t/	/t/	/d/

(NOTE: As you pronounce these words slowly, don't stop between the sounds. This practice will assist students in recognizing words that they have sounded out.)

Activity 3.3

- Each person in your group needs to have a different assigned lesson number. (At least one person select 1-12, 13-20, & 21-30)
- Working with your partner, review Section 1-4.
 - What to display, materials set up, etc?
- Discuss the following questions:
 - What does the instructional routine sound like (Hint: Use the script as your guide)?
 - How will I elicit frequent responses?
 - How will I monitor & provide feedback?
 - What does my brisk pace feel like?

Activity 3.4

- **At your table group, select a lesson number. Each person should have a different number.**
- **Review your lesson – sections 1-4 only. Prepare your lesson (what do you need to display, etc)**
- **Take turns teaching those sections to your table group focused on the 4 key instructional delivery elements:**
 - **Using an instructional routine**
 - **Eliciting frequent responses**
 - **Monitoring & providing feedback**
 - **Attempting a brisk pace**

- Phonemic awareness connection

Blending Sounds & Reading Words

Rationale

- “Good readers must have a strategy to phonologically recode words.”
(Ehri, 1991; NRP, 2000)
- “During the alphabetic phase, reading must have lots of practice phonologically recoding the same words to become familiar with spelling patterns.”
(Ehri, 1991)
- “Good readers rely primarily on the letters in a word rather than context or pictures to identify/pronounce familiar and unfamiliar words.”
(Ehri, 1994, Kilpatrick, 2015, Seidenberg, 2017)

Automatic Word Reading

- The more a word is practiced, the more readily it is recognized & the more easily its meaning is accessed. (Adams, 1990, 2001)
- Several subskills are required to develop automatic word recognition: students must be able to identify letter sounds quickly & effortlessly & be fluent in phonemic decoding. (Wolf & Bowers 1999, Hudson et al. 2006)

Instructional Routines in the Second Level

Routines:	Who Benefits?	Sounds Like?	When?
Continuous	Some – Typically mastered at 1st grade, but may need to be reinforced	You say the sound as I touch the letter, don't stop between sounds.	Data Driven
Spelling Focused	All – Great way to get students to focus on where the combination is in the word	What sound? What word?	Data Driven OR Word Type
Loop Loop Routine	All – Encourages students to apply their decoding strategy with longer words	What part? What part? What word?	Word Type

Review, & Challenge Words Rationale

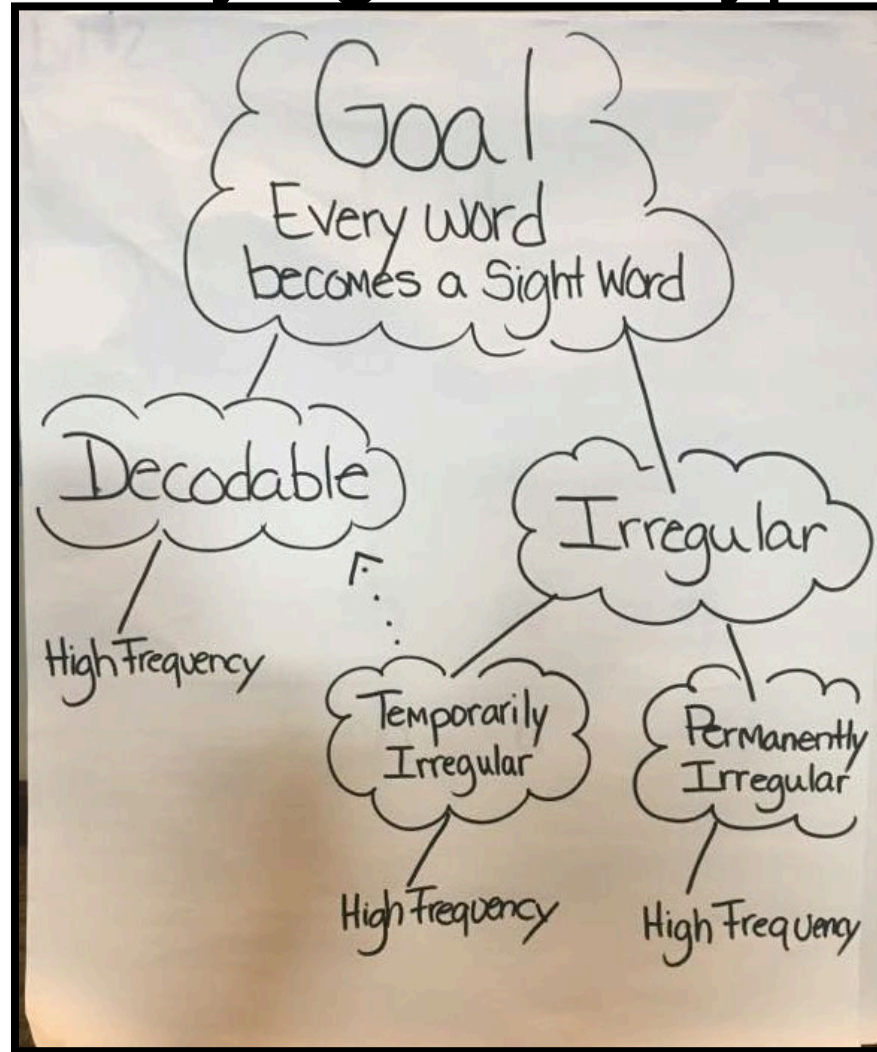

- Enhance students' transfer of decoding skills to longer words
- Increase student motivation
- Increase the size of students' sight word vocabulary – meaning that they can instantly & effortlessly read all types of words

Archer, 2011 & Kilpatrick, 2015

Activity 3.5

- At your table group, return to your selected lesson number.
- Review your lesson – **New Words, Review Words, Word Endings and Challenge Words.**
- Prepare your lesson (what do you need to display, etc)
- Take turns teaching those sections to your table group focused on the 4 key instructional delivery elements:
 - Using an instructional routine
 - Eliciting frequent responses
 - Monitoring & providing feedback
 - Attempting a brisk pace

Clarifying Word Types

Distinction Between Three Terms

High Frequency Words

- Only 100 words account for approximately 50% of the words in English print. (Fry, Fountoukidis, & Polk, 1985)
- Only 13 words (a, and, for, he, is, in, it, of, that, the, two, was, you) account for 25% of words in print. (Johns, 1980)

Irregular Words

- Words that cannot be sounded out accurately using most common sounds for graphemes.
- Many high frequency words are irregular.

Sight Vocabulary

- Words that are recognized instantly.
- The quick & automatic recognition of most common words appearing in text is necessary for fluent reading.” (Blevins, 1998)

Section 9: Blending Sounds & Reading Words

- Updated Instructional Routine not in the manual
- Teach “sight words” through phoneme-grapheme analysis
- In text, students decode the word and “make it a real word”

Section 7: Sight Words

E. Sight Words. Say the words.

were said you to of are look was my have

Intro Routine

1. Say the sounds in the word
2. Attached sounds to symbols in order of regular sounds
3. Point out the “tricky” sounds
4. Read the word

Review Routine

1. (word in print) Get ready to read this word.
This word is?
2. (If student errors, put the error in a sentence)
3. Is that a real word?
4. What do we say?
5. (point out the tricky part and have student read the word again)

Activity 3.6

After the Rain

Part 1

Chuck, Kim, and Nick played with the ship. "I will be glad when this rain stops," Chuck said. "Ships and trains are OK, but I think it will be fun to check on that shed on the trail."

"Look!" said Kim. "Is that a faint ray of sun I see in the west?" Just then, the rain stopped.

"Let's go!" said Nick. "You stick the ship and the train back on the shelf, and I will tell my mom."

Part 2

Chuck and Kim sped up the wet trail. "Wait! Wait!"

Nick said with a pant. Kim and Chuck sat on a gray rock and waited. The shed was just up the trail.

"My dad said that this trail led to the train tracks when my mom and dad were kids," Nick said. "He said that mail going on the next train was kept in the shed."

"Well, let's go check the mail shed then," said Kim.

Part 3

"It's just junk," Chuck said. "I see paint cans, a paintbrush, a bent tray, pails, and lots of dust."

"This is not junk," said Nick as he held up a mail sack.

"Look. This sack is from the Clay Trail Mail Run. This must be Clay Trail. Dad said mail was kept in this shed. I bet it will shock Dad to see the mail sack. He may faint!"

Reading Decodable Text Rationale

“The science of reading confirms that the use of decodable text is necessary to build the automatic systems in the word-form region of the brain that lead to fluent reading. When children are given text for which they do not know the phonetic code, they develop an over-reliance on context usage, sometimes knowing a word one day yet forgetting it the next.”

Shaywitz and B. Shaywitz, “Reading Disability and the Brain,” *Educational Leadership*, 61, no. 6 (2004): 6–11

Sentences & Stories Routine

Passage reading routines should provide students with as much practice as possible.

1. Have students read the story segment (or portion) silently.
2. Have students read the segment orally (choral, partner, or individual turns).
3. Passages should be read more than once to increase rate.
4. Ask questions on the content.
5. Have students match the story part to the corresponding illustration.

Passage Reading Procedures

Silent Reading

- Tell students to read a certain amount.
- Ask them to reread material if they finish early.
- Monitor students' reading. Have them whisper-read to you.

Choral Reading

- Read selection with your students.
- Read at a moderate rate.
- Tell your students, "Keep your voice with mine."
(Students may silently read material before choral reading.)

Individual Turns

- Use with small groups.
- Call on an individual student to read.
- Call on students in random order.
- Vary the amount of material read.

Partner Reading Procedure

Partner Reading

- Assign each student a partner.
- **Reader** whisper reads to partner. Students alternate by sentence, paragraph, or segment.
- **Coach** corrects errors.

Ask - *Can you figure out this word?*

Tell - *This word is _____. What word?*

Reread the sentence.

Alternatives to support lowest readers

- Students read the material together.
- First reader (better reader) reads material. Second reader reads the SAME material.
- Partners allowed to say “me” or “we”.

Section 11: Segmenting & spelling words.

- Important that students segment the sounds in the word before writing it.
- Provide feedback on the phoneme-grapheme connection

G. Spelling

(Have students open their books to Lesson 1, page 6.)

1. Find part G in your book.
2. Your first spelling word is *stay*.
What is the word? *stay*
3. Say the sounds to yourself as you write the word.
(Monitor.)
4. (Write the word on the board or display it on-screen.) Check your word. If you made a mistake, cross out the word and rewrite it.

Segmenting & Spelling Words Rationale

Readers use the pronunciation of words already stored in LT memory as anchoring points for letters used to represent the pronunciations

Step 1: attach phonological sound in memory to letters

Step 2: anchor the sequence of letters in memory

Experience Sections 10 & 11

- Be our students

- **Discuss the following questions:**
 - What does the instructional routine sound like (Hint: Use the script as your guide)?
 - How will I elicit frequent responses?
 - How will I monitor & provide feedback?
 - What does my brisk pace feel like?

(Repeat steps 1-3 with part I.)
4. Now go back and correct any mistakes. (Monitor students.)

Why Word Work & Comprehension?

- Provides students with opportunities to apply their reading skills previously learned
 - Moves instruction from I Do & We Do to You Do
- Provides teachers opportunities to observe students in action, provide feedback & support, & individually work/check in with students as needed
- Comprehension is the **REASON** for reading.
 - The goal of ALL reading instruction is comprehension.

Comprehension Tasks

- Answering literal & inferential questions on passage
- Matching passage segments to illustrations
- Sentence completion
- Selection of sentence to match illustration
- Passage reading & sentence completion
- Reordering words/phrases into sentences
- Answering who, what, where, when questions
- Answering range of passage questions
- Identifying word that does not go in set

Activity 3.9

- Continue with the same lesson.
- Review Sections 12 & 13.
- Questions to chat with your partner about:
 - How will I set this up for my group?
 - How will I monitor their work during this time?
 - How will we review the answers?
 - Do I want to keep track of their work somehow?

4.0 Monitoring the Program

A Student & Teacher Perspective

In Module 4.0, we will...

- Review the following tools:
 - Checking Up (Section 14) that occurs at the end of lessons 3, 6, 9, 12, 16, 20, 23, 26, 29 & 32
 - Fidelity Checklist Tool
 - DIBELS Next Progress Monitoring

Section 14: Checking Up

- A formal measure of students' skills
- Appears at the end of lessons 3, 6, 9, 12, 16, 20, 23, 26, 29 & 32
- Teacher listens to students read from a story & counts the number of errors
 - If 90% of the students make two or less errors, the group may move on to the next lesson.
 - If not, the lesson should be repeated.

Practice, practice, practice.

In Module 5.0, we will...

- Provide insight on developing fluency at three different levels
- Share games of how to provide additional practice & motivation for each lesson
- Share a routine for passage reading

Fluency Often Misunderstood

“It appears that the best approach to addressing fluency is to be sure that a student has proficient orthographic mapping skills. Fluency is not seen as a separate reading subskill, but rather as a byproduct of having instant access to most or all of the words on the page.”

“There is no compelling reason to consider fluency as an isolated skill.”

Kilpatrick, 2015

2nd Goal: Rate
