

## Coaching the Pyramid: Example Action Plan

This document provides an example of an action plan developed collaboratively between a Practitioner Coach and classroom teaching team. It is adapted from the National Center for Pyramid Model Innovation's content on Practice-Based Coaching.

### Goal

I will learn about two strategies to promote peer interactions (peer buddies and my turn/your turn game) and I will plan and implement an activity for each strategy twice a week during small group time.

### How will I know when I have achieved this goal?

I will know I have achieved this goal when I have implemented an activity for each strategy in at least 2 days over three weeks.

### Action Plan:

Action Steps	Resources
Read about and watch video examples of what these strategies look like	National Center for Pyramid Model Innovations (NCPMI) website (videos and tip sheets)
Discuss with Sandra in which activities I could try to use these strategies	Sandra observes classroom activities to identify a good starting point
Sandra videotapes when I use these strategies in an activity, reviews, and discusses how it went	Video camera
Write lesson plan for implementing the activities	Time to write lesson plan
