## Part 2: Intervention Platform for Check-In, Check-Out

An “intervention platform” is a collection of programs or practices that have been intentionally reviewed and selected to be used as the foundation, or building blocks, for customizing intervention. The district’s review and selection process is linked here for easy access (**insert hyperlink**). Members from the Multidisciplinary Team support the Curriculum Director in the intervention review and selection process. The following information is documented for the collection of programs or practices that are referred to as your school’s elementary “intervention platform.”
